DIED.

Medical Testimony. W. Thornton Parker, M. D., Re-corder, Association of Acting Surgeons

of the U. S. Army, writes: "SALEM, Mass., March 23, 1891. "When at Stuttgart, Germany dur-ing the winter of 1881-82, I was auffering from a severe attack of bronchitis, which seemed to threaten pneumonia. I met, at the Hotel Marquardt, Com-mander Beardslee, of the United States navy. In speaking of my sickness, he remarked: 'Doctor, you can cure that chest trouble of yours by using an All-cock's Porous Plaster.' 'Trat may be true,' I answered, 'but where can I get the plaster?' 'Anywhere in the civilized world, and surely here in Stutt-gart. Whenever I have a cold, I ai-ways use one and find relief.' I sent to the drug store for the plaster, and it did all my friend had promised. Ever since then I have used it whenever suffering from a cold, and I have many

"The Allcock Plaster is the best to be had, and has saved many from severe liness, and undoubtedly, if used cromptly, will save many valuable wes. Whenever one has a severe cold hey should put on an Allcock's Plaster soon as possible. It should be placed ecross the chest, the upper margin just below the neck; some hot beet tea, or mik, will aid in the treatment.

"This is not a patent ramedy in the bjectionable sense of that term, but a landard preparation of value. The overnment supplies for the U. S. army and Indian hospital stores contain Allock's Plasters, and the medical pro-ession throughout the world are well ware of their reliability and excellence. I shall always recommend it, not only to break up colds, but as useful in allaying pains in the chest and in the back. It is a preparation worthy of general confidence."
